My concern is adding railroad traffic to an already overburdened street structure.

Currently grid lock exists for several hours each morning and afternoon in downtown Barrington.

Additional rail traffic would only add to the already overburdened streets.

If traffic on the rail line flowed smoothly it would be an additional burden to the streets.

What if there was a derailment or other accident? Who knows what would happen.

Please do not permit this to happen.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
